FOR MAINTAINING OUR PEACE

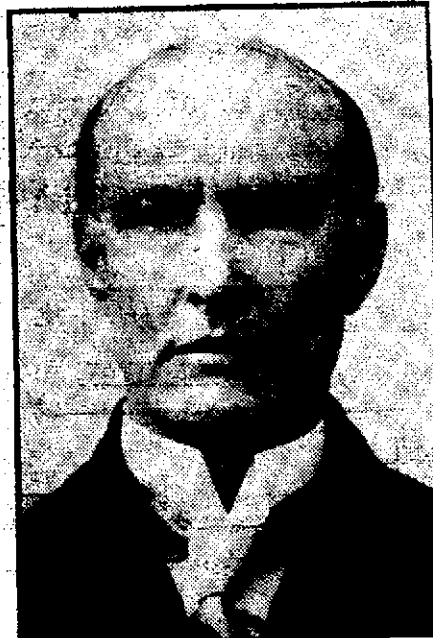

No Dissenting Voice As Resolution Was Adopted

LAST SESSION TONIGHT

Trustees of Wooster University Named for Three Years—Overture to Be Sent General Assembly for Broadening and Assisting Work of Church Erection and Extension.

A special invitation is issued to the people of Newark to attend the closing session of the Ohio Synod of the Presbyterian church which will be held in the Second Presbyterian church this evening. The evening will be devoted to a popular meeting in the interest of Foreign Missions and an address will be delivered by Rev. William C. Johnston, who is pastor of the largest Presbyterian church in the world, located at Batanga, Africa. Rev. Mr. Johnston is a most able speaker and through his personal work, he will prove a most interesting speaker. Others of prominence will be on the program.

The concluding deliberations on the final day of the Synod were held

REV. WILLIAM HOUSTON, D. D.
Presbyterian Students' Pastor at Ohio State University, who has an important place in Synod's program this afternoon and tonight.

in the Second Presbyterian church. The devotional hour was held and a quartet from Bethel Home at Springfield sang. A report of the committee on Evangelistic Work was made by Rev. William J. Dempster, D. D. The church has showed substantial gains during the past six years. But the year just closed has shown the smallest gain of any year in the six years just passed.

A new interest is being manifested in evangelistic work.

A number of resolutions dealing with the evangelistic phase of the work were adopted.

At the conclusion of his report, Rev. Mr. Dempster introduced Rev. T. K. Davis of Wooster, who is over 85 years old, who touched on the good done by the college life at Wooster. He also told of the many outcroppings in religion, of its fads and fancies, and he condemned heartily the promoters of the "new thought" idea.

The moderator appointed a committee of three to draw up the resolutions: Dr. J. K. Gibson, Dr. William A. Clemmer, and Dr. W. F. Dickens-Lewis.

The report on synodical Sunday school work was made by William B. Gage and it was adopted.

The committee on filling vacancies reported the following appointments:

Foreign Missions—Charles H. Parsons, Toledo, Maumee Presbytery, for five years in place of Elder Flamer Ball.

Publicity and Sunday School Work—Elder A. P. Sheriff, St. Clairsville.

Church Erection—Rev. J. C. Tait, D. D., of the Presbytery of Columbus.

Ministerial Relief—Rev. W. T. Eagleson, Maumee Presbytery.

The stated clerk, Rev. E. T. Swiggett, D. D., read the narratives received from a number of the Presbyteries. Most of them reported gains in membership and an increase in spirituality. The reading concluded with a reading of the names of the deceased members of the Synod, the congregation standing in their honor.

AID BY WIRELESS SAVED ALL LIVES BUT TWO, IN YEAR.

(Associated Press Telegram) Washington, Oct. 14.—Aid rendered by the Federal Radio service to ships leaving American ports which met with accident or disaster during the past fiscal year resulted with but one exception, in saving of all but two lives. The exception was the Lusitania, which was torpedoed by a German submarine.

Reports to the Bureau of Navigation show that 26 vessels left American ports and required the use of wireless to summon help. Of that number four caught fire, 12 ran ashore, stranded or got into an ice jam, three broke down, five were in collisions, one was storm-battered or waterlogged and one was torpedoed.

ZEPPELINS KILLED 55 IN LONDON

(Associated Press Telegram) London, Oct. 14.—Fifty-five persons were killed and 114 injured in the Zeppelin raid over London last night.

Fourteen of the fifty-five persons killed and thirteen of the 114 wounded were military casualties, according to an announcement made by the official press bureau.

GERMANS REPORT RAID.

(Associated Press Telegram) Berlin, Oct. 14.—(By wireless to Sayville, N. Y.)—One official report given out today by the German admiralty regarding the Zeppelin raid on London, says that in addition to dropping bombs on the English capital, the waterworks at Hampton, and the town of Woolwich, where there is a great arsenal, were heavily bombed. Great fires are reported to have followed the explosion of the Zeppelin bombs.

IMPROPER

PROPOSALS MADE BY MAN TO LITTLE GIRL; MAN IS PUNISHED SEVERELY

Judge Robbins Hunter is Determined to Break Up Such Degenerate Practices Immediately.

Frank Ford of Chester street was brought into juvenile court today, charged with making improper proposals to a little eleven year old girl, Marie Kline, daughter of Mr. and Mrs. Edward Kline of Gay street. According to the testimony the little girl was engaged in selling tickets for an entertainment and was going through an alley or street in the vicinity of the round cement works. She alleges that Ford invited her into the plant and thinking he intended buying a ticket she accompanied him. She stated that he endeavored to kiss her and then began making improper advances and becoming frightened she broke away and ran for home, where she told her story to her mother. When the father came from work in the evening, hearing of the affair he started for the cement plant intending to administer a chastising to Ford. After he had cooled down somewhat he resolved to place the matter before the proper authorities and had a warrant issued for Ford's arrest.

Probation Officer Dwyer went to Ford's home and meeting him there informed him that he had a warrant for his arrest and asked if he should read it to him. Ford replied that it was not necessary that he would accompany him. He stated that he wished to secure his hat and went into the front room for it. In a twinkling he was out of the front door and sprinting like a deer. Officer Dwyer left after stating that he would secure his man if it took a year. Early the next morning he went to the Ford home and found that there was no doubt that he was lying had searched the cement plant and next tried the home of the young man's parents in Morris street. It was about 3 a. m. but the officer's diligence was rewarded for he found his man.

After hearing the testimony Juvenile Judge Robbins Hunter stated that there was no doubt that Ford was guilty of improper conduct and he had made up his mind to use extreme measures in dealing with such cases. He stated that within the past week three such charges had been brought before him and he intended to break up such practices even if it was necessary to sentence the guilty ones to long imprisonment. The court then stated that if Ford's attorney would give his professional word not to interfere with the prisoner, he would not impose a stated sentence but would remand him to jail where he might ponder over his wrong doing. The agreement was made and Ford was taken to jail where he will remain until the court orders his release.

INCREASES

In Proposed Appropriations For National Defense Total \$400,000,000

BOND ISSUE MAY BE NECESSARY

Navy Will Get Nearly Two-thirds of Amount

ADMINISTRATION'S PLAN

And President Fully Expects That Democratic Congressional Leaders Will Approve It, But It Is Not Expected That It Will Be Put Through Without Some Opposition.

(Associated Press Telegram) Washington, Oct. 14.—Representative James Hay, of Virginia, chairman of the house military affairs committee, had an engagement with President Wilson today to discuss plans for national defense, which contemplate a \$400,000,000 appropriation by the next congress. This would be an increase of approximately \$140,000,000 over the previous year, of which about \$60,000,000 would be for the army and \$80,000,000 for the navy. The additional expense probably will be met by a bond issue.

Although the amount which congress will be asked to appropriate for the army and navy, it is understood, has been put at about \$450,000,000, this amount may be cut to about \$400,000,000 at a conference next week between the president and Secretaries Garrison and Daniels.

Indications are that an appropriation of about \$170,000,000 will be asked for the army and \$248,000,000 for the navy.

Today's conference between Chairman Hay and the president had to do particularly with plans for the army. The president had before him the plans for a military policy prepared by Secretary Garrison, which, it is said, provides in part for an increase in the regular army of from 87,000 to about 120,000 men and creation of a reserve of about 400,000 men. The president regards the army program as conservative and well balanced.

President Wilson today approved Secretary Garrison's plan for increasing the army. It calls for an annual expenditure of \$184,000,000, an increase of approximately \$75,000,000. The plan in its approved form will be presented to congress with the full backing of the administration.

Much of the increased appropriation would be devoted to coast defense, and a substantial increase in the field artillery. Details as to increases in the personnel of the army have not yet been made public. If the navy, which will ask for an increase of \$140,000,000, carries through its plan, making the total naval appropriations \$248,000,000, the appropriations for national defense including the army's \$182,000,000, would total \$430,000,000. It is probable, however, that in final form the appropriations will not exceed \$400,000,000.

The president spent practically the entire morning going over Secretary Garrison's estimates and plans, which are understood to propose an increase of 30,000 to 50,000 men and in the army a large reserve to be created through inducing men to join the ranks by short term enlistments. The plans also include encouragement of the national guard, and increasing of the number of army officers, by using the military academy at West Point to its full capacity.

After conferring with Assistant Secretary Breckenridge, the president laid the plan before Chairman Hay of the house military committee. Later he will consult Chairman Chamberlain of the senate military committee and other influential leaders of both the senate and the house.

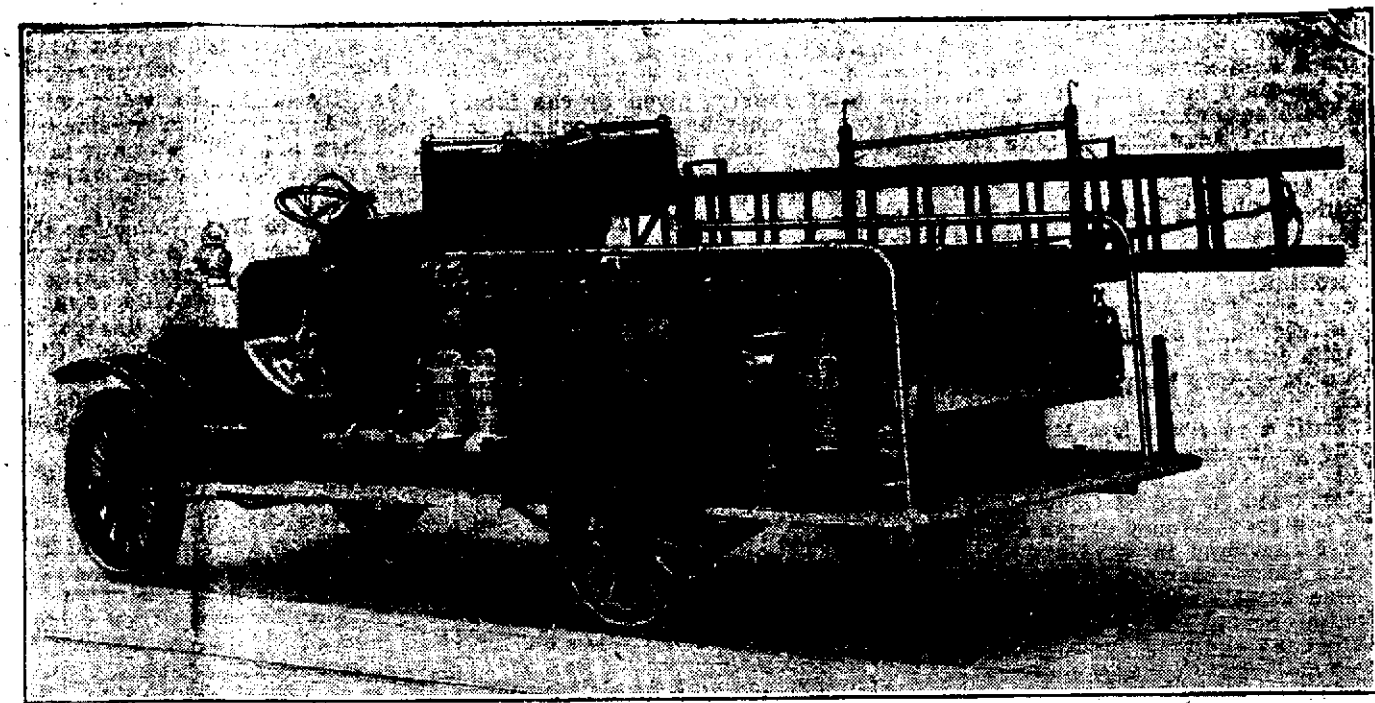

The administration is confident that the Democratic leaders in both houses will approve the plan, although it is not expected that appropriations will be made without some opposition.

In the recommendations of both Secretaries Garrison and Daniels particular attention was paid to aircraft.

LARGE SHIPMENT OF GERMAN DYES TO AMERICA TODAY.

(Associated Press Telegram) New York, Oct. 14.—With fifty tons of German coal tar dyes in her cargo, the steamship St. Louis arrived today from Liverpool. This is the largest shipment of German dye-stuffs received in this country since last winter. The consignment was directed to Secretary of Commerce William Redfield, but is intended for William A. Mitchell, of Lowell, Mass., acting for the national association of cotton manufacturers.

DEATH

OF ROBERT E. MCKISSON, RECALLED HIS BITTER STRUGGLE WITH HANNA

When the Latter Defeated Him for United States Senator by Only One Vote.

(Associated Press Telegram) Cleveland, Oct. 14.—Former Mayor Robert E. McKisson, 48, died at his home here, today after a protracted illness. He was married for the third time on his sick bed September 20, last to Mrs. Pauline E. Reid of Buffalo. McKisson was first elected mayor here when he was 32. He was associated at one time, with former Senator T. E. Burton in law, and was a candidate for senator against the late M. A. Hanna in 1898, losing by one vote in the legislature. At that time he headed the anti-Hanna Republicans and received democratic support.

HANNA TRIUMPHED OVER A COALITION LED BY MCKISSON.

(Associated Press Telegram) Columbus, Oct. 14.—News of the death of former Mayor Robert E. McKisson, recalled the details of the most notable senatorial battle in Ohio's recent history. Marcus A. Hanna had sprung into prominence in the nation at large only second to President William McKinley, whose campaign for the nomination and election Hanna had managed successfully. Hanna had succeeded John Sherman in the United States senate by appointment of Governor Bushnell, when Sherman became secretary of state under McKinley. When the Ohio legislature convened in the winter of 1898 to elect a senator for the full term, anti-Hanna Republicans under the leadership of McKisson formed a coalition with the Democrats and succeeded in organizing the lower house by the election of Harry Mason of Cleveland, anti-Hanna Republican, as speaker and a slate of Democrats as other officers. The powerful influence of Charles L. Kurtz, of Columbus, was allied with the McKisson forces and the success of the coalition against Hanna seemed assured when these forces met in caucus and made McKisson the fusion nominee for senator. Hanna triumphed over the combination in the joint assembly and was elected senator.

by the narrow margin of one vote. The contest was replete with sensational climax, charges of the use of money figuring at various stages of the bitter struggle.

BATTLESHIP NEVADA NOW NEARLY COMPLETE.

(Associated Press Telegram) Washington, Oct. 14.—Commander J. T. Tompkins, who will be executive officer of the new super-dreadnaught Nevada when the vessel goes into commission, has been detached from the battleship Ohio to duty at Quincy, Mass., where the Nevada is being fitted out. The new ship is 36.2 percent complete, and will be put in commission before January 1.

W. C. T. U. CONVENTION WILL ADJOURN TONIGHT

(Associated Press Telegram) Seattle, Wash., Oct. 14.—Delegates to the national convention of the Women's Christian Temperance Union, have completed all the important business except selection of next year's convention city and the final day of their sessions was passed in discussions of methods of work. The choice of a convention city will be made tonight.

SERBIAN TROOPS CROSS FRONTIER.

(Associated Press Telegram) London, Oct. 14.—Serbian troops crossed the Bulgarian frontier Tuesday, says a Reuter dispatch from Sofia, and attempted to occupy heights situated on Bulgarian territory west of Belogradchik. The fighting which followed lasted all day, but the Serbs finally were repulsed and the Bulgars themselves occupied the heights.

LICKING COUNTY CONVICT PAINTS WILLIS' PORTRAIT.

Columbus, Oct. 14.—A life-sized portrait of Governor Frank B. Willis is being painted by Jonathan E. Haines, a penitentiary convict from Licking county, serving time for forgery.

Haines is a painter by profession. With the aid of poor light and only a few tubes of paint, he has been at work on the picture for several weeks, and it is claimed he is securing excellent results. The picture will be presented to Governor Willis by Warden Thomas when completed.

UNEASINESS

Being Felt as to Fate of Allied Expedition Into The Balkans

FEELING IS INTENSIFIED

By Dispute in the French Chamber of Deputies

AND SILENCE OF ITALY

Regarding Her Participation in the Proposed Movement—German's turn to Attack French Front in West—Serbians Confident of Successful Resistance of Invasion.

(Associated Press Telegram) London, Oct. 14.—Increasing uneasiness is felt in London at the absence of definite news concerning the concerted allied expedition in the Balkans. This feeling is intensified by the news of the dispute in the French Chamber of Deputies in regard to the Balkan danger, by Italy's persistent silence regarding participation in the expedition and by uncertainty concerning the British program. Opinion here is divided to some extent as to the advisability of taking part in the Balkan conflict. The general opinion is that Great Britain is morally bound to assist Serbia if this can be done without a dangerous attenuation of the main front where it is felt the war will finally be decided, notwithstanding the Balkan diversion.

Having failed in their attack on the British position on the western front, the Germans have turned to the French and made a gain east of Soissons. The advantage they obtained, however, is not of sufficient importance to affect the general situation of the French. Their assault in the vicinity of Tachereau in pursuance of the movement began three days ago, likewise has been materially unproductive thus far.

On the eastern front the Russians are now in full possession of the initiative and the momentum which carried them across the Stripsa river, in Eastern Galicia, has not yet diminished. It is reported unofficially from Petrograd that it is the Germans who now lack ammunition, thus reversing conditions of two months ago. Although the Germans are continuing their attacks on the Dvinsk lines, the fury of the onslaught has diminished, and, gaining in one section while losing in another. They appear to have made no net gains recently. In fact, Petrograd press dispatches state that German troops are three miles further from the border than a week ago. Official institutions which recently were removed from Dvinsk and Riga are now being taken back.

The Germans and Austrians continue to report steady progress on Serbian territory, although admitting their headway is being impeded somewhat.

Since the fall of Belgrade no encounter of great strategic importance has occurred in this new war theatre. Serbia is making a desperate attempt to stem the large German and Austrian forces, which are being augmented continually. Serbian officers profess confidence that it will be possible to make successful resistance, even with inferior numbers on account of the difficulties which the mountainous country presents to the invader. The Serbians are awaiting a Bulgarian attack between Guevgueli and Strumitza, near the Greek border. They expect an attempt will be made to cut at this point the railroad between Saloniki and Nisab and in anticipation of such a movement have centered artillery in this district.

ELECTRICITY TO BE USED TO PROPEL NEW DREADNAUGHT.

(Associated Press Telegram) New York, Oct. 14.—An innovation in naval construction was inaugurated at the New York navy yard today, with the laying of the keel of the super-dreadnaught California, the first battleship in the world to be equipped with electric machinery for her own propulsion. High officials of the navy department came here to attend the ceremonies and a luncheon given by Rear Admiral Usher, commandant of the yard.

The California will cost about \$15,000,000 and will displace 33,000 tons. She will carry twelve 14-inch rifles, mounted in four 3-gun turrets. The two other battleships of this class will be the Idaho, and Mississippi, work on which has not yet commenced.

The California's electric driving system has been tested by the use of a similar method on board the collier Jupiter. She can be stopped, backed and maneuvered by one man from the bridge. Navy officers expect she will be completed in 1917.

RELIABLE REMEDY RESTORES KIDNEYS

For many years druggists have watched with much interest the remarkable record maintained by Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy. It is a physician's prescription. Swamp-Root is a strengthening medicine. Dr. Kilmer used it for years in his private practice. It helps the kidneys, liver and bladder do the work nature intended they should do.

Swamp-Root has stood the test of years. It is sold by all druggists on its merit and it will help you. No other remedy can successfully take its place.

Be sure to get Swamp-Root and start treatment at once.

However, if you wish first to test this great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention the Newark Daily Advocate.

(Continued from Page 1.)

church erection was made by Rev. Jno. W. Christie of Van Wert.

He stated that 412 churches had donated \$6,117 to the board, and 248 did not contribute. He asked that note be made of this disparity between amount stated in the minutes of the General Assembly, which was \$17,027 and the amount which actually passed through the treasury of the board in Ohio which was \$8,147.

"In no board is there felt such a with-holding of funds with the possible exception of the temperance committee. Church extension work needs a field secretary who will devote his time to this work. We therefore recommend an overture to the General Assembly, to take such steps as may be necessary to engage and broaden the work of the Board of Church Extension in such a way as to give it the power to meet the growing conditions which confront it.

Rev. David G. Wylie, D. D., of New York, secretary of the Board of Church Extension was introduced and spoke on church erection and extension.

"Until a year ago last May, I was in the pastorate. I did not appreciate until last year, the privilege of a pastor. The Board of Church Extension is a great agency of the church. It was chartered in 1855 and is one of the oldest agencies in the church. It was established to assist in the erection of houses of worship for public congregations. It was amended so as to build manses and mission houses. I have listened to the report just read and it pictures a great national movement in church extension.

"Because it is not in the charter we cannot use it in buying land, and in order to change this condition of things it is necessary to change the charter.

"It took \$1,000,000 to remove the mortgaged indebtedness of the Presbyterian church in New York."

The overture to be submitted to the general assembly by the board of church erection resulted in a discussion of the advisability of presenting the matter to the assembly again as it has been before that body in other years. Some seemed to think it was a dead issue, others that it was most vital, and that it be resurrected and fought for valiantly. The resolution was read again in its entirety as follows:

"That the Synod of Ohio overtures of the general assembly take such steps as may be necessary to enlarge and broaden its work, in order that the board may co-operate in a large and more definite sense in the rapidly expanding movement of our church; in this connection to consider the desirability of the board maintaining a representative who by co-operation with synods and Presbyteries should become a real leader of the Presbyterian church extension, and if the present church, or ruler of the board prevent the execution of the largest possible plans in relation to the growing work of the church to take whatever steps may be necessary to accomplish the proper amendment of these instruments."

The report of the committee on temperance and Sabbath observance was made by Rev. James G. Miller, chairman of Westchester, O., who offered a brief report.

Mr. J. L. White of the anti-saloon league then spoke on the liquor question. "We lost last year on account of the fraud in money matters and apathy on the part of our friends."

The speaker outlined the laws governing the issue and election.

Mr. White announced that Mr. Gamble, of the Proctor-Gamble Soap Co., manufacturers of Ivory soap, had donated \$500 in Cincinnati on Tuesday of this week.

He told of the wonderful campaign that had been prepared and of the wonderful organization the anti-saloon league had under which the league worked.

When Mr. White finished, Mr. Frank Miller of Wooster, president of the temperance board of the Presbyterian church, took the platform and spoke in glowing terms of the great fight to be waged, of the interest manifested and of the work to be done to bring success to the dry forces in the state fight this year.

WEDNESDAY AFTERNOON.

The session of the Synod on Wednesday afternoon was held in the Second Presbyterian church and the first work to come before the conference was the receiving of the report of the board of trustees; the report with its resolutions was adopted.

D. E. Putnam of Columbus was elected a member of the board of trustees of the Ohio Synod for a term of five years.

A resolution was adopted for a memorial for the First Presbyterian church, Wooster, which celebrated its 100th anniversary on Oct. 17, 1815.

The new moderator, Rev. W. H. Houston, D.D., who has been chairman of the home mission committee, made his report for that committee. He gave a number of interesting statistics. The home mission department has a deficit and hope is entertained of clearing up this deficit. The amount raised for self-support in the home field was \$91,000.

The report spoke highly of the ability of Rev. Robert E. Pugh as synodical superintendent.

A memorial service was held for Rev. J. A. Donahy, D. D., chairman of the synod board of missions, the speaker paying many glowing tributes to the deceased.

Announcement was made of the election of Rev. J. D. Williamson of the Presbytery of Cleveland, to fill the vacancy.

A resolution was presented to congratulate President Woodrow Wilson and his advisors, Secretary Robert Lansing for their efforts to keep the nation in honorable peace and to express the confidence of the synod members. A rising vote was taken for its unanimous adoption.

tion. The resolution will be forwarded to the president.

A number of recommendations were received and accepted.

A memorial service of 15 minutes for the deceased members of the synod was held following which Rev. William H. Hudson, D. D., chairman of the committee on foreign missions, spoke of the high standard of efficiency shown by the deceased Dr. Donahy.

His report included 11 Presbyteries. The 11 Presbyteries should have included 410 churches, but only 269 reported. Sixty-five per cent of the ministers preach on foreign missions.

"We have a membership of 135,541 and we gave to foreign missions \$11,133, or about 83 cents per capita. Ohio gave 6 per cent of the total amount given by the total church membership. She ought to give 9 per cent and she is short 3 per cent, or over \$160,000.

"Last year was the greatest in the history of the board. The receipts were over \$3,000,000, which leaves a deficit of \$82,000.

"The field is the world, and I want to make an appeal for the millions who are not in church." The speaker concluded:

"The luxury of living of the Presbyterian church is what prevents our helping others."

The recommendation was urged to department of state to take action against the persecutions of the Armenians.

Pres. J. Campbell White, president of Wooster college, was again on the program. Dr. White used a chart to illustrate his talks on foreign missions.

"I have been asked by young people desirous of going into the missionary field, which is the neediest field. I am at a loss to answer this question. The neediest field ought to be one of six. The first of these is Latin America, which includes Mexico, Porto Rico, South America.

"The next is the Moslem world.

They are now more open than for centuries to Christian religion conviction. Africa is the next consideration. Will we permit these pagans to become Moslem before the Christian missionary gets to them?

"India is another country which offers a great field for workers. The time has come when people should become executors of their own estate. The time is past when one dies and leaves a million dollars to missions in his last will and testament. Imagine Presbyterians having millions in the banks when these terrible situations exist.

"China is undoubtedly one of the greatest missionary fields. I do not think we ever faced a more solemn moment in the history of the church. America must take the leadership."

Rev. William H. Foulkes, D. D., of Philadelphia, secretary of the board of Ministerial Relief, was on the program. He said in part:

"The mission of the Presbyterian church is missions. If I were to sum it up it would be evangelism at home and abroad. But there is a task that must be fulfilled and that is the caring for the aged and infirm ministers of Christ. We have been trying to right the wrong done to our veteran ministers. For over sixty years our church has had a board of ministerial relief.

"The board has been the left hand of the church reaching down into a pocket which is almost empty! The average relief has been about eight cents, and Ohio is even lower, being only about six cents.

"A pension is only a wage earned and conserved until it is needed. Great corporations are running leagues ahead of the church, and why is it? It is because Christian business are putting into their secular business a fairness which they will not give in their church."

"The relief department of our board is the ambulance of the church at the foot of the hill of disability, picking up the infirm and aged. It is a 'twin six' ambulance. Our aid is increasing as our gifts increase. Over 489 servants of the church are being cared for, the oldest of these is 97 years old.

"All we have been able to give to the 800 widows the past year is \$176 a year, and if we were to depend on Ohio for it we would have been able to give only \$39 a year. The ministerial relief board sent in to Ohio \$27,000 and we have received from Ohio only \$8,000."

The speaker then briefly outlined the sustentation pension system.

Overflow business from the morning session was taken up and a disputed resolution presented by the resolutions committee was re-read and as the resolution had been much discussed the resolution was rewritten. It dealt with the appointment of an executive secretary for the executive commission. The discussion arose over the practicability of paying for his services.

In the re-writing of the resolution it was made to read that the secretary would be named if arrangements could be made for his salary.

The election of trustees for Wooster College was held on Wednesday afternoon. At the June meeting of the Board of Trustees of the college, held June 14-18, the board voted to recommend to the Synod of Ohio for re-election of the board of trustees of the college of Wooster the following members whose terms expired in 1915 to serve upon the board until 1918: Rev. Oscar A. Hills, D. D., Wooster; Rev. William F. Weir, D. D., Wooster; John L. Severance, New York; John E. West, Bellefontaine; Rev. William M. Hudson, D. D., Youngstown; Hon. Richard L. Cameron, Marysville; Rev. William Gaston, D. D., Cleveland (honorary trustee).

Rev. Samuel S. Palmer, D. D., of Columbus and Benjamin R. McClelland, M. D., Xenia, these two being representatives from the Alumni Association.

Rev. Paul R. Hickock of Washington, D. C., to replace Dr. J. Campbell White, newly elected President of the college.

Adelbert Highley of Cleveland. The synod adopted the recommendation and declared elected those whose names were reported.

WEDNESDAY EVENING.

Putting aside the purely business

aspect which has marked the deliberations of the synod, the delegates and visitors were entertained with a reception in the parlors of the Second Presbyterian church on Wednesday evening, when an opportunity was given the visitors in the city to meet the local church people. Punch was served and a delightful informal hour from 7 to 8 was enjoyed.

The moderator, Dr. Walter Houston, announced that it had been impossible for Dr. Williamson of Cleveland, the new chairman of the committee on Home Missions, to attend.

Dr. Houston briefly outlined the work of the home missions and told of the growth of the church west of the Rockies.

The Home Mission work needed to be reorganized and re-constructed. There are 66 churches in this Synod, about 500 of which are small churches.

In regard to Home Missions there is a foreign problem to be dealt with and this is noted especially in the districts of Steubenville and St. Clairsville. Rev. John Sharpe, formerly of the Presbytery of Cleveland, was introduced and talked of his experiences in these two districts.

Rev. Mr. Sharpe is a Scotchman, and told of the loneliness he felt and of the loneliness the average foreigner feels and he said the common language in which we could all converse, is the language of kindness.

"While many of these men are rude and crude, but they come to this land of promise to try for better things. I want to bring to you just a vision of what the work means. The pitiful need of the foreigner is the strongest plea and makes the strongest appeal for help for him.

"The average American man or woman is not conscious that the nation we boast of is in the making in these foreigners."

Stating that we can not conduct a church without a system any more than we can conduct a business without system, and that the church as well as the business needs a head, the moderator introduced Rev. Robert E. Pugh of Columbus, a former Newark man, son of Mrs. Ella Pugh of Cedar street.

Rev. Mr. Pugh spoke of his childhood spent here and said the condi-

tions that are met in the home mission field are divided into three phases. One man found a little rural district about one hundred miles from here where extraordinary conditions exist. There were 102 families he found 26 families in which there was one Christian. Only 23 families in which there were over two Christians.

For this five men go out and do all sorts of work.

The second phase has to do with the growing towns and cities. In one city of 115,000 people we have only two Presbyterian churches. A few years ago the United Brethren foresaw the possibilities and they have four churches and two missions.

"There are fifty places around the state of Ohio that are more than open to us tonight. We must possess the foresight of the business man shows in the investment of his money."

"The third phase is the foreign element. There are 1,600,000 foreigners or foreign-born children in the state of Ohio tonight. There may be difficulty in dealing with the grown folk. But you can deal with and mold the children."

"We cannot do anything with the problem because of the small benevolences to home missions."

The speaker read a written appeal signed by 28 Greeks for a Christian church where they can worship in their own language.

An offering was taken up for the Women's Synodical societies of Home and Foreign Missions.

Dr. Houston in a happy manner introduced Dr. Moses Breeze of New York, now connected with the Assembly Board of Home Missions.

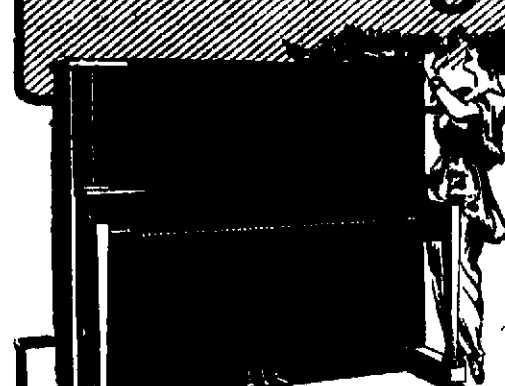

"I have been under the Board of Home Missions for the past seven years. I have been in almost all the fields in the United States. Have been in all the states of the Union, save one."

"One thing I would like to call your attention. I would like to get 1,000 men or women to give \$100 for some special work."

"I have been asked to give a speech that I have given in several cities, and with it goes an old joke, that I have given 267 times."

"I am trying to get the laymen of the church interested in missionary work. There are no such things as (Continued on Page 10, Col. 3)

It Takes Eight Months

If a Crown Piano were merely a piece of cabinet work it could be made in a few weeks. It takes eight months to build a Crown Piano because it is a musical instrument, adjusted and re-adjusted until it has the purity, volume and sweetness of tone that every Crown must have before the name goes on.

Crown Pianos

are in the hands of experts for months after the strings, hammers and keys are in place. Tone regulating is done by men unusually skilled, so that the quality and equality of tone are perfect.

Every Crown Piano is tuned at least seven times before leaving the factory. The actions are regulated and re-regulated by men who specialize in this accurate work.

All this work does not show on the surface, but means musical value—tone of lasting sweetness—action responsive to every touch—durability.

The Crown welcomes comparisons and musical tests.

Send for our booklets which explain piano value, also what to look for in the selection of an instrument for your home. These booklets contain real piano information, and guided by them you are sure to select a good piano. They are FREE for the asking. Mail the coupon TODAY.

ALWAYS A SATISFIED CUSTOMER IF YOU USE A GARLAND RANGE OR HEATER

---Free--- Demonstration

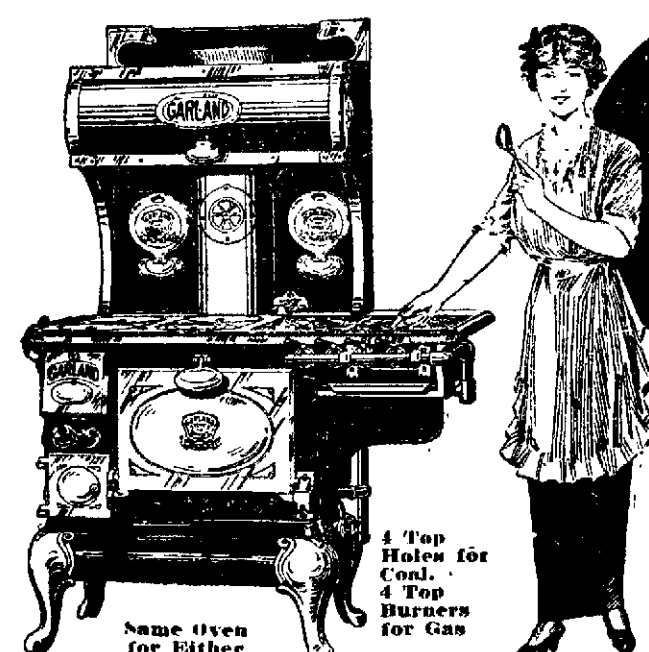

Saturday, October 16th

of the famous

Coal and Gas Combination Garland Range

Mr. Edward Hemsteger their special representative will be here and will be glad to show you the many advantages in owning a Garland Coal Range, Gas Range or Heater. We cordially invite you all to attend this Free Demonstration of Garland stoves.

Besanceney Bros.

One Stove! Two Fuels!

Burns Either Coal or Gas Without Interchange of Numerous Parts.

Here, in this new "GARLAND" Combination Range, you get a single stove that now does the work of two! Burns coal in the winter; keeps the kitchen warm. Burns gas in the summer and keeps the kitchen cool. Something that never before was possible except with TWO ranges.

And you burn either coal or gas, or BOTH SIMULTANEOUSLY, in this new "GARLAND" without changing or adjusting complicated parts. No shifting of dirty, sooty grates or top burners. No fuss, no muss, no work or worry. Think of the wonderful convenience and added capacity on wash days or any time when the kitchen is crowded and cooking is heavy. We will only be too glad to show you this

Resolute Garland Combination Range

And demonstrate the many features it has and show you why it is an advantage over any other range on the market. We also carry a full line of

A Pine Whooping Cough Remedy.
Mothers, Dr. Bell's Pine-Tar Honey is just the remedy for your children's cold ailments. The fact is that pine is a quick enemy of cold conditions. Its qualities loosen the mucus in the throat, soothe the lungs and open up the air passages. The combination of honey, soothing and pleasant, with the loosening pine quality makes this an ideal cough remedy for children. Each passing year brings for it new friends. A family of growing children cannot afford to be without it. 25c a bottle.

MANAGERS AGREE THAT BEST TEAM WON THE SERIES

Philadelphia, Oct. 14.—Both Manager Carrigan of the victorious Boston Red Sox and Pat Moran, manager of the Phillies, declared last night that the 1915 world's series would go down in baseball history as one of the hardest ever fought for premier honors, and both were agreed that the best team won.

"When you are beaten four in a row there isn't any excuse to offer," said Moran. "Any team that wins four successive games in a world's series must be given credit. We played our best. We gave all we had, but we didn't have enough. Our team was the best in the National league and Boston was the best American league club. And as the Sox beat us, they naturally should be regarded as the best ball club in the country."

"It was a hard fought series, and the best team won," said Carrigan. "I never saw a series so interesting and so hotly contested. The Phillies deserve a lot of credit. They put up a stiff battle every minute and gave us a fight all the way through. Of course we were favored, but because of the several breaks of the game, but the results are self-evident. We outplayed the Phillies. All my men worked hard for me and I am elated. We encountered masterful pitching from Moran's staff. I wish the Phils all kinds of luck and hope they win the pennant in their league next season."

LEWIS LEADER OF HITTERS IN WORLD'S SERIES

Philadelphia, Oct. 14.—The official averages of the world's series, which closed with the Red Sox a winner in four of the five games played, shows George Foster, the little pitcher of the Red Sox, as the best batter with an average of .500, although Duffy Lewis of the Boston was the real leader with .444 and Luderus of the Philadelphia club second with .423.

CONGRATULATIONS FROM GOVERNOR TO MANAGER CARRIGAN.

(Associated Press Telegram)
Boston, Oct. 14.—The Commonwealth's appreciation of the achievements of the world champion Red Sox was conveyed to President Joseph J. Leland and members of the team in the following telegram sent by Governor Walsh last night. "Congratulations to you and your victorious boys. We are all proud of the Red Sox Massachusetts is grateful to you for bringing home a world's baseball championship."

Mayor Curley also sent a congratulatory telegram.

PACING RACE TO BRING OUT GOOD STRING OF HORSES

(Associated Press Telegram)
Lexington, Ky., Oct. 14.—The 2:04 trot was the chief event on the card for the final day of the Grand Circuit meeting here today. Horses eligible to start in that race were Joan, Margaret, Druhen, Elvahn, Tysler, May Mack and Ross B. Next in interest was the 2:31 pace with such fast horses as Fox-Direct, Earl J. J. Braden, Direct, Napoleon Direct, Peter Stevens and others entered.

A 2:12 trot was also on the program. Officials of the Kentucky Trotting Horse Breeders' association said the meeting was the most successful ever held on the local track.

Single G, owned by W. H. Barefoot of Cambridge City, Ind., and one of the star pacers of the year, won the Cumberland stakes, the chief event of the Grand Circuit races here yesterday, in 2:02 3-4. In the first heat Bell Clark was the leader with Single well up at the three-quarter pole, but Gosnell brought the Indiana horse under the wire a winner by a length, Fay Richmond being second. Queen Abess landed second place in each of the next two heats, taking second money in the event.

The 2:02 trot was easy for Ames Albingen, which won every heat, Trubada and Idora Worthing doing second and third mingles. Peter Billiken was easily the best in the 2:12 trot, taking the race in straight heats.

The 2-year-old trot was won by General York after he had lost the opening heat to Suldme, driven by Geers. The veteran driver was unable to land his horse in front in another heat or to do better than third, though he took second money. General York was well driven by Nuekols, who was the winning driver in the 2:12 trot.

WANT GAME HERE.

The Advocate has received a communication from the management of the Massillon Blues, 170 pound champions of last year, asking for a game with some Newark team. Communications should be addressed to Frank C. Kracker, Massillon, Ohio.

UTICA R. F. D. NO. 2

Mrs. Ed. Norris and children, Carl and Donald, and Mrs. Dan Stockdale of Newark, were guests of the former's mother, Mrs. John Lloyd last Wednesday.

M'DANIEL TEAM TO PLAY STRONG MANSFIELD ELEVEN

Sunday's football contest at Wehrle park promises to be the best contest staged this season, the opponents of the McDaniel team, being the Mansfield Tigers, said to be composed of many of the star players of the Massillon Tigers, a team which has occupied first place among the professional gridderers of the state. There is every indication that the Tigers are loading up for the Newark game, having heard of the ability of the McDaniel eleven. According to information coming to the Newark camp, a heavy draft has been made on the ranks of the Shelby team which is also a classy aggregation.

Mansfield's team averages about 185 pounds per man, every member is a graduate from college or high school football. While not frightened at all by the prospects of this game, the Newark team realizes that its best efforts will be required to maintain the reputation already gained through the successes of this season and last. The team is practicing new plays and perfecting the old ones. The forward passing combination is being improved upon and special attention is being given to the punting and kicking departments. If the Newark team is weak in any department it is in the kicking department.

Sunday's game should be largely attended. The team is deserving of much bigger crowds and this knowledge is spreading among the lovers of the game. The attendance has been increasing with each game.

BRAVES GET ONE FROM THE COAST; TO REBUILD TEAM.

Boston, Oct. 14.—The breaking up of the Braves in preparation for the rebuilding of the team next season began yesterday when the business manager, Walter E. Hapgood, announced that Herbie Moran, outfielder, and Bert Whaling, catcher had been released to the Venice, Cal., club. In return the Braves received Willhoit, an outfielder with a high batting average. The New York Americans obtained Willhoit by draft, but released the claim.

GO NO FARTHER

The Evidence Is At Your Door.

Newark proof is what you want and the statement of this highly respected resident will banish all doubt.

G. W. Coulter, manager of the L. H. Swisher Cigar Co., 421 German street, Newark, says: "Kidney trouble came on me like the thrust of a knife. A sharp pain caught me through the small of my back and for the year and a half following, I was in poor health. I couldn't work steadily and felt badly. I doctored, wore plasters, in fact, did everything, but didn't get relief. Morning I had to drag myself around and it was hard for me to dress. I couldn't stoop or bend. Often I had to lie down again. I felt so utterly worn-out and weak I had rheumatism pains in my limbs. Doan's Kidney Pills gave me a lasting cure."

HEAD STUFFED FROM CATARRH OR A COLD

Says Cream Applied in Nostrils
Opens Air Passages Right Up.
Instant relief—no waiting. Your clogged nostrils open right up; the air passages of your head clear and you can breathe freely. No more hawking, snuffling, blowing, headache, dryness. No struggling for breath at night; your cold or catarrh disappears.

Get a small bottle of Ely's Cream Balm from your druggist now. Apply a little of this fragrant, antiseptic, healing cream in your nostrils. It penetrates through every air passage of the head, soothes the inflamed or swollen mucous membrane and relief comes instantly. It's just fine. Don't stay stuffed-up with a cold or nasty catarrh.

Rheumatism and Allied Pains—They Must Go!

The congestion of the blood in its flow causes pain. Sloan's Liniment penetrates to the congestion and starts the blood to flow freely. The body's warmth is renewed; the pain is gone. The "man or woman who has rheumatism, neuralgia or other pain and fails to keep Sloan's Liniment in their home is like a drowning man refusing a rope." Why suffer. Get a bottle of Sloan's. 25c and 50c. \$1.00 bottle holds six times as much as 25c size.

When the Armenians are all dead,
the Turks will no doubt kindly
grant our request to stop mas-
sacring them.

It is believed the farmers will
buy tractors to do their farm work
with after they all have touring cars
for excursion purposes.

A good many people would never
be so foolish as to bet on the world's
series ball games, as they want the
money to buy war stocks at top
prices.

It is about time for the girls to
start in again knitting socks for the
soldiers. After cutting the feet off
they stretch out so as to make splen-
did abdominal bands.

The western railroads having
asked an increase of \$17,000,000 in
passenger rates, confidently expect
to be allowed at least seventeen dol-
lars and ninety-nine cents.

It certainly is some proposition for
a woman to select her fall clothes.
If it is different from what other
people are wearing, it isn't stylish,
and if it isn't different, it lacks dis-
tinction and individuality.

A financier used to be a man who
could make his expenses come
within his outgo. Now he is a man
who can borrow enough money to
make his receipts equal to his pay-
ments.

Upholding Wilson.

What would be the result on our
foreign policies should the fall elec-
tions show a tendency against the
Democratic party?

The off-year election returns are
always held to show the feeling for
and against national administrations.
If the Republicans should show
gains this fall, the impression would
be given to Europe that the country
is not back of Mr. Wilson. Foreign
powers would be less inclined to
yield to his viewpoint as the official
representative of our country.

If, however, the fall elections
show a continued Democratic drift,
it will be interpreted at home and
abroad as an endorsement of the
Wilson foreign policies, on the mat-
ter of submarine warfare and pro-
tection of neutral rights on the seas.
Feeling that the American people
are back of the president, foreign
powers would listen far more re-
spectfully to what he has to say.

The present situation is ticklish,
full of seen and hidden perils. It
sometimes seems as if our country
were on the very verge of war. The
American people must stand as a
unit behind their chosen officials, if
they are to command respect. If the
country seems divided, foreign diplo-
mats will play on these divisions.

It takes a united country to make
an impression on foreign capitals.
That appearance of union can be
given only by standing behind what-
ever authorities are in power at a
given time. If the Republicans were
in power, it would be the duty of
every Democrat to back up the Re-
publican officials. The Democratic
party did this loyally at the time of

Slabaugh and Bigbee

The fact that Frank E. Slabaugh
carefully attended to his official busi-
ness as Sheriff of Licking county
and invested his earnings in real
estate when he finished his term of
office seems to be the only argu-
ment the Newark American Tribune
can advance for defeating him in this
campaign. Instead of giving reasons
for Mayor Bigbee's re-election — a
difficult feat we admit — the Tribune
puts in the time repeating that Frank
Slabaugh was a poor man when
elected sheriff and when he quit the
office he bought "two big farms and
a valuable house in Newark."

Is it a crime to buy a farm? Is it
an offense to own a good home?
What's the point to the Tribune's at-
tack? The Tribune doesn't criticize
Mr. Slabaugh's official conduct,
what then is the purpose of its at-
tack?

We venture the assertion that the
present sheriff is drawing fees at
the same rate and in the same pro-
portion as did Mr. Slabaugh. And
so did the sheriff preceding Slabaugh
so what is there to the Tribune's tale?

The Advocate has not gone to the
trouble of examining the Sheriff's

records but we assume that the Trib-
une's figures are correct. What of
it? For the sake of argument let's
admit that Mr. Slabaugh drew the
fees in the amount alleged by the
Tribune. He was legally and hon-
estly entitled to them, wasn't he?
Would the Tribune have felt better
if Mr. Slabaugh had squandered his
money? He had the good sense to
save enough out of his earnings to
buy a home and some farm land and
in so doing he exercised good busi-
ness judgment. Mr. Slabaugh is an
experienced lawyer and has had busi-
ness experience. Straight as a
stretched string, energetic and capa-
ble, Frank Slabaugh will make just
as good a mayor as he did a sheriff
and everybody admits that he was
one of the best county officials we
ever had.

As the American Tribune seems to
be greatly exercised over Mr. Sla-
baugh's purchase of a farm, it might
be pertinent to inquire where Mayor
Bigbee acquired the money with
which to buy the property he owns
in this county. Mr. Slabaugh's
property was purchased out of his
savings as sheriff. What about
yours, Mr. Bigbee?

Letter from the Czar.
Dear Offaginsky: Ain't I having a
heck of a time? My cabinet has re-
signed and I had to go to the front in-
stead of staying at home to attend
a session of the cabinet-makers, un-
ion, thereby getting away behind
with my workovitch.

I don't see that I need a cabinet
very much, anyway. I'm getting
sort of discouraged. I thought that
if I led the German (this is no dan-
ce stuff, so don't pull a wize-
ovitch out of "leading the German")
I thought that if I led the German
army away off into the hills some-
where and lose it, those allies on the
western line could do as they pleas-
ed, and come right into Berlin. But
they seem only to have improved
the opportunity to make their
trenches deeper and get ready for
the winter.

Some of these times I'm going
to turn the enemy around and start
it the other way. If ever I should
lose my sense of direction and meet
the enemy face to face, who knows
but that what we might annoy them
like everything?

Yours for the sprinting industry,
NICK ROMANOFF.
Behindabushky, September 29.

Parents.
Parents are a great responsibility
to their children.

Many a child would have an en-
tirely unhampered career if it were
not for the annoyance caused by
having a full set of parents on its
hands.

The greatest difficulty children
have with their parents is to get
them to conduct the household af-
fairs to suit the children.

I have known children to labor
in marvelous patience—with the ex-
ception of occasional outburst—
with the stubbornness of parents, for
years and years, yet attain no no-
ticeable results.

The great trouble in the matter of
children's discipline over parents is
the fact that the parents are so old
and so set in their ways by the time
the children get at them, that the
task confronting the conscientious
child who takes pride in its parents
is really appalling.

Nobody not possessing the con-
fident enthusiasm of youth, whose
bright lexicon shows a deplorable
lack of that word "fail," would even
tackle the job, let alone work at it.

Personally, we never quite gave
up trying to make something out of
our parents. They were nice folks,
but never did quite as we would
have chosen for them.

Sometimes we would beat our
father sorely—pounding the palm of
his large, strong right hand with
the seat of our trousers, until we
were really sick of the job.

But we would find our hope ris-
ing again after a few days—phoenix-
ing partly from the ashes—and we
would try again.

Children who wish to avoid heavy
responsibility ought to get along
without parents.

Here's New Vigor For
Overworked Stomachs

T. J. Evans, the popular druggist
has been in the drug business long
enough to have his own opinion of
the best way of selling medicines.
He says the plan adopted by Mi-o-na,
the great dyspepsia remedy, is the
fairest that he has ever heard of.
He doesn't believe that a medicine
ought to be paid for unless it does
the user some good. And Mi-o-na is
sold under a positive guarantee to
relieve dyspepsia or to refund the
money. You simply leave 50 cents
on deposit with T. J. Evans and if
after you have used the box of Mi-
o-na you decide that it has done you
no good, all you have to do is to tell
him so and he will return your
money.

Hundreds of people have been re-
lieved of stomach agonies by using
this remarkable remedy. It is not
simply a food digester; it is a medi-
cine that puts all of the digestive
organs into normal condition and
gives ruddy, glowing, vigorous
health. A change for the better will
be seen after the first few doses of
Mi-o-na, and its continued use will
soon give the power to eat anything
at any time and not suffer distress
afterward.

Mi-o-na is sold under a positive
guarantee to refund the money if it
does not cure. This is the strongest
proof that can be offered as to the
merit of the medicine.

Nothing lessens a man's success in
his work or a woman's fascinating
personality more than a weak stom-
ach, with its attending evils. Use
Mi-o-na and see how much more
there is in life.

The Horse.

The horse is sliding off the map,
his friends at last admit it; he'll
hang around a while, maybe, but
soon he'll have
to quit it. For
things propelled
by gasoline in-
crease each day
in numbers, and
old Dobbin
leaves this earth-
ly scene for the
eternal slum-
bers. When au-
tos drove him
from the pave-
ment of hustling ci-
ties, we said,
"He's found his
urban grave,
which is a thou-
sand pities; but on the farm he'll
have a place, till farms are frozen
over; along the furrows there he'll
chase, and fill himself with clover."
But now, alas, he doesn't rank with
agriculture's factors; the farmer
draws upon the bank and buys some
big steel tractors; and one of these
will haul six plows, as through a
field it lumbers; the horses see it
as they browse, and know they are
back numbers. They're shipping
now our foaming steeds across the
briny water, for Europe needs them
where she bleeds and wades around
in slaughter; but it's about the only
use that's left, just now for horses.

At eleven-thirty this morning Dr. L. C. Sparks performed the ceremony which joined in wedlock Mr. Charles Chopson and Miss Olive Dunlap, young people of Tulsa.

At the conclusion of the ceremony which took place at the minister's home, the happy couple drove in a machine to Lancaster to spend their honeymoon. Their friends join in best wishes.

Mrs. Sherman Baggs is entertaining at her home in West Locust street with a kitchen shower, honoring Miss Mary Morath, whose wedding will take place on October 20.

The celebration of Columbus Day was most fittingly kept by the Cheiron Order when about fifty girls from St. Francis de Sales school enjoyed a day-trip to the home of Miss Nan Showman, three miles west of the city where they spent the day in roaming the hills and also some folk dances were given. All returned at six o'clock feeling the day had been one of continuous enjoyment.

DENISON TO PLAY WITTENBERG AT HOME ON FRIDAY

Denison University men want to see the State-Illinois game at Columbus Saturday so they sought the consent of the Wittenberg football eleven to play the game scheduled between Wittenberg and Denison for Saturday, a day earlier. Wittenberg was glad enough to consent. Wittenberg men also want to see O. S. U. in action against the Big Nine opponent.

So Denison and Wittenberg will play at Granville Friday afternoon. The game promises to be interesting. Denison's defeat at Delaware last Saturday gives Wittenberg renewed hope that its eleven will be able to make a showing against the Baptists.

Scott's Romantic Home.
If any other literary man ever owned a home more magnificent than Abbotsford, the romantic palace of Sir Walter Scott, the globe trotters haven't heard of it. From every where in Scotland came stones and carvings and metals to adorn it, and the construction of Abbotsford went on slowly and fantastically, after the fashion of a rambling cathedral. Scott became the sheriff of the county, the king's local representative, and delighted to have the place always crowded with guests. The armory and the drawing room are so rich in curios that many visitors describe Abbotsford as the most interesting museum in Scotland. The novelist's study and his library are just as he left them. The 20,000 books which bank the walls of these two rooms from the floors to the beams of the ceilings did not lose their usefulness at his death. To persons with the proper credentials they are available for circulation.—C. P. Cushing in Travel.

Immensity of Alaska.
Alaska's immensity impresses one beyond belief. It embraces the picturesque, the sublime, the material and the beautiful. It reveals to the visitor, multiplied one hundred fold, the beautiful Thousand Island region of the St. Lawrence, the snow covered Alps, the fords of Norway and the volcanic and glacial wonders of Iceland. It has the sweetest flowers, the most luxuriant vegetables, the finest grazing and timber lands, the richest fisheries and mineral deposits and a most beautiful climate, with the warmth of the middle states in winter along southern and western Alaska and the dry, healing cold of the arctic in the highest latitude of the territory. Extending from our Pacific coast 3,000 miles toward the Orient, Alaska is the glittering diamond of America's diadem.—John A. Schleicher in Leslie's.

How Yeast Makes Bread Rise.
In the dough from which bread is made there is a lot of sugar, which contains carbon, hydrogen and oxygen. It is necessary to ferment this sugar to make bread edible, and yeast is used because it has the power to do this. It is made from a plant having this quality. Fermenting sugar is equivalent to burning it, and there are two results. One is the formation of carbonic acid gas. A great deal of this gas is caught in the dough in the form of large or small bubbles, and some of it escapes into the air. The part that cannot escape causes the dough to rise and makes the bread light. The holes in bread are the little pockets which hold the carbonic acid gas. The effect of the bubbles is to lift the body of dough so that the heat can penetrate readily and bake it properly.

Perception Outruns Talent.
Our perception far outruns our talent. We bring a welcome to the highest lessons of religion and poetry out of all proportion beyond our skill to teach, and, further, the great hearing and sympathy of men is more true and wise than their speaking is wont to be. A deep sympathy is what we require for any student of the mind, for the chief difference between man and man is a difference of impressionability. Aristotle or Bacon or Kant propound some maxims which is the keynote of philosophy thenceforward. But I am more interested to know that, when at last they have hurried out their grand word, it is only some familiar experience of every man on the street. If it be not it will never be heard of again.—Emerson.

Lincoln's Fees.
As a rule, Abraham Lincoln's fees were less than those of other lawyers of his circuit. Justice Davis once remonstrated with him and insisted that he was doing a grave injustice to his associates at the bar by charging so little for his services. From 1870 to 1880 his income varied from \$2,000 to \$3,000, and even when he was recognized as one of the ablest lawyers of the state his fee book frequently shows charges of \$3, \$5 and \$1 for advice, although he never went into court for less than \$10. During that period he was at the height of his power and popularity, and lawyers of less standing and talent charged several times those amounts.—"The True Abraham Lincoln."

Couldn't Tell.
Saturday afternoon a woman rushed up to one of the gatemen at the South station and asked:
"Will I have time to catch my train if I wait for my husband?"
"Where is he?" said the gateman.
"I don't know," she replied.
"Well, neither do I," said the gateman.
She walked away. The incident was closed.—Boston Record.

The man who fails can always blame it on the fellow whose advice he accepted.

"A Pair of Sixes."
When "A Pair of Sixes" was produced at the Longacre Theatre, New York, last year, a number of newspaper writers had the courage to comment on the title and prophesy that it would draw "mill houses." The success of the play has vindicated the "jokester," but these various quotations from the great American card game have led a few of the innocent-minded to believe that the author has dramatized the fascinating game of poker. The card game is merely an incident in the plot, and upon its result is based a series of the most laughable complications ever seen on the stage. To express it mildly, it is hugely amusing. The play will be seen at the Auditorium one night only, Friday, Oct. 29th, with a company including among others Bertha Kriegerhoff, John Kearney, Nellie McHenry, Kendal Weston and Caroline Leonard.

Entertained Visitors.
Col. G. W. Bacheider, manager of the Western department of the Pennsylvania Insurance company, was a visitor in the city yesterday, and was shown over town by M. J. Reese, the gentlemen being accompanied by John W. Gobel, state agent of Bellefontaine, O. The gentlemen were shown through the plant of the American Bottle company after which they visited the Country club and Moundbuilders' park. The visitors were highly impressed with the industrial activities of the city and the beauties of Newark as a place of residence.

Obituary

A. B. Mercer.
A. B. Mercer, 59 years old, brother of Postmaster Frank B. Mercer, died Tuesday morning at the General hospital, Cincinnati, following an illness of heart trouble of several months' duration. The illness of Mr. Mercer was a surprise to Postmaster Mercer, who did not know his brother was in Cincinnati until a telegram from the brother's wife, notified the Newark man that Mr. Mercer was dying.

For five years, Postmaster Mercer and his brothers have not known where A. B. Mercer was located.

The body was brought to Newark Wednesday night and taken in charge by L. N. Bradley and this morning at 1 o'clock the funeral cortege started for Martinsburg where services were held this afternoon.

Mr. Mercer was at one time in the drug business, having had stores at Ticonderoga, N. Y. and Corning.

Besides a widow who lives in Cincinnati, and P. T. Mercer, the deceased leaves a daughter by a former marriage, Mrs. Gladys Mercer of Gambler, O.; four brothers, James H., of Bloomsburg, Pa.; Recorder of Columbia county, Penn.; C. L. of St. Vernon, O.; W. C. of Pittsburg, Penn.; and L. D. Mercer, of Canton, O., and a sister, Miss Mary Mercer, of Toledo. The body was removed to J. J. Sullivan & Co.'s funeral parlors and will be taken today to Martinsburg, O., his native city, where burial will take place.

Jesse David Brown.
Jesse David Brown, son of Darius and Sarah C. Brown, was born in Clayton township, Perry county, O., March 11, 1880, died October 30, 1915, aged 35 years, 6 months and 20 days. He leaves a wife, mother, one brother, Franklin O. of Thornville, Ohio, two sisters, Mrs. Allen Heiser, Thornville, Ohio, and Ollie M. of the home, and many other relatives and friends. He will be sadly missed in the home where he has been an invalid for almost a year.

Card of Thanks.
I wish to thank the many friends of my deceased husband, Max J. Winkler, for the kindness shown me in my sorrow and for the many beautiful floral offerings; to the Elks for their kindness and Mr. McGonagle for the efficient service rendered.—Wife.

"I WANT TO WARN YOU AGAINST THE CRAZE PEOPLE IN THIS COUNTRY HAVE FOR WHITE FLOUR. THE WHITEST FLOUR IS NOT THE BEST; IT IS NOT THE PUREST; IT IS ONLY THE DEAREST, AND WHEN YOU BUY IT YOU BUY LOOKS AND NOT NOURISHMENT. IN ORDER TO MAKE IT WHITE, SOME OF THE MOST NOURISHING AND ESSENTIAL COMPONENTS OF THE NATURAL WHEAT HAVE BEEN TAKEN AWAY."

These "nourishing and essential components" are the priceless mineral phosphates of the grain, known as the "tissuesalts," indispensable for perfect health of body, brain and nerves.

Everywhere food scientists and physicians are sounding a like note of warning, for a host of ills is following the pernicious practice of casting out these elements in the milling process, and that, simply to make the flour look white and pretty. Neurasthenia, anemia, Bright's disease, constipation, rickets, and a lowered resistance against disease in general, are some of these ills.

More and more thinking people are waking up to this evil. There's a way out.

NEWARK MAN IS SLATED TO SUCCEED BOPE

Telegraphic dispatches from Co-
lumbia state that Geo. H. Hamilton
of this city will be the successor to
C. W. Bope, Willis appointee for
state inspector of workshops and fac-
tories. Mr. Bope is to have a hear-
ing before the industrial commission
of the state today and it is said that
that board will remove him, after
previously having asked for his resig-
nation.

The Newark man was one of a
number of state employees who were
hurried to Mansfield Wednesday to
forestall action by the Ohio State
Federation of Labor, now in session
in that city, against a series of resolu-
tions condemning the Willis adminis-
tration. It is said that Governor
Willis is in bad with the labor peo-
ple of the state and that they will
not support him in the furtherance
of his political ambition. Mr. Ham-
ilton, who was a candidate for the
position of state inspector of work-
shops and factories but was turned
down for Bope, and was given a
deputyship in the fire marshal's de-
partment at a salary of \$1,200 per
year, was very active in protesting
against the humiliation to which he
was subjected in being given a minor
position.

The removal of Chief Bope opens
a way for the placing of Col. Ham-
ilton and his friends. To secure the
coveted honor, however, the Colonel
must deliver the goods and endeavor
to patch up the troubles in the Ohio
Federation of Labor which it is hav-
ing with the Willis administration.
If this is brought about all will be
sunshine and roses.

The Willis administration is not
in any too good in many counties
over the state. Licking is an exam-
ple. It is well known that there are
two factions in this county and they
have been at swords points for many
months. The middle of the road men
endeavored to patch up a truce some
weeks ago and might have succeed-
ed but someone "spilled the gravy."
Governor Willis began his adminis-
tration by recognizing the claims of
his friends, those men who supported
him at times when such support was
needed, viz. during his primary cam-
paign. Then there was a reversal of
form and they were shoved aside and
an endeavor made to placate the other
side by recognizing them in the
distribution of the plums. In the
meantime the friends of the govern-
or who had rushed to his support
now are holding aloof. Both fac-
tions in this county are about evenly
divided, although with the regular
organization fighting him at the pri-
mary, the Willis men proved victori-
ous and carried the primary by a
handsome majority. Since then,
however, Governor Willis has failed
to recognize any of their claims. It
is hardly probable that these same
men will get out and shout for the
Ada man when he comes up for re-
nomination, if he ever does.

More than a dozen officials of the
State Industrial Commission were in
Mansfield endeavoring to patch up a
truce with the Ohio State Federation
of Labor. Among them were Fred
C. Croxon, Chief Mediator of the
commission; George H. Hamilton of
Newark, who is to be Chief Factory
Inspector; Miss Bessie Corwin of
Cleveland, Deputy Factory Inspector;
George Ditty, Inspector of Engineers
and William Patterson of Canton, a
Deputy Inspector of Engineers.

IF BACK HURTS BEGIN ON SALTS

Flush the Kidneys at once when
Backache or Bladder bothers—
Meat forms uric acid.

No man or woman who eats meat
regularly can make a mistake by
flushing the kidneys occasionally, says
a well-known authority. Meat
forms uric acid which clogs the kid-
ney pores so they sluggishly filter or
strain only part of the waste and
poisons from the blood, then you get
sick. Nearly all rheumatism, head-
aches, liver trouble, nervousness,
constipation, dizziness, sleeplessness,
bladder disorders come from slug-
gish kidneys.

The moment you feel a dull ache
in the kidneys or your back hurts,
or if the urine is cloudy, offensive,
full of sediment, irregular of passage
or attended by a sensation of scald-
ing, get about four ounces of Jad
Salts from any reliable pharmacy
and take a tablespoonful in a glass of
water before breakfast for a few days
and your kidneys will then act fine.
This famous salt is made from the
acid of grapes and lemon juice, com-
bined with lithia and has been used
for generations to flush clogged kid-
neys and stimulate them to activity,
also to neutralize the acids in urine
so it no longer causes irritation, thus
ending bladder disorders.

Jad Salts is inexpensive and can-
not injure; makes a delightful effervescent lithia-water drink which
all regular meat eaters should take
now and then to keep the kidneys
clean and the blood pure, thereby
avoiding serious kidney complica-
tions.

DEAFNESS CANNOT BE CURED
by local applications, as they cannot
reach the diseased portion of the ear.
There is only one way to cure deaf-
ness, and that is by constitutional re-
medies. Deafness is caused by an in-
flamed condition of the mucous lining
of the Eustachian Tube. When this
tube is inflamed you have a rumbling
sound or imperfect hearing and when
it is entirely closed, deafness is the
result, and unless the inflammation
can be taken out and this tube restored
to its normal condition, hearing will
be destroyed forever; nine cases out of
ten are caused by Catarrh, which is
nothing but an inflamed condition of
the mucous surface.

We will give One Hundred Dollars
for any case of Deafness (caused by
catarrh) that cannot be cured by Hall's
Catarrh Cure. Send for circulars free.

True Secret of Keeping Youthful Looking

(The Beauty Seeker.)

"The real secret of keeping young-look-
ing and beautiful," says a well-known
hygienist, "is to keep the liver and bow-
els normally active. Without these re-
sults, the system, polluting the blood
and lodging in various organs, causes
jaundice. One becomes flabby, obese, nerv-
ous, mentally sluggish, dull-eyed, with
blood and sallow of face."

"But to get liver and bowels working
as they ought, without producing evil
after-effects, has been the problem. For-
tunately, there is a prescription of un-
questioned merit, which may now be had
in convenient tablet form. Its value is
due largely to an ingredient derived from
the humble May apple, or its root, which
has been called "vegetable calomel" be-
cause of its effectiveness—though
course it is not to be classed with the
real calomel of mercurial origin. There
is no habit-forming constituent in these
tablets—that's the name—and their
use is not followed by weakness or ex-
haustion. On the contrary, these harm-
less vegetable tablets tend to improve
tone and elasticity to the relaxed intes-
tinal wall. Sentinal tablets, which may
be procured from any drugstore, are
worth a trial. They will prove a revelation to
any constipated, liver-troubled person."

Chief Cause of Pimples, Blotches, Sallow Skin

(Messenger of Health.)

Unightly eruptions, pimples, blotch-
es, blotches, sallow or muddy skin, usually
are due to a sluggish liver, a constipated
bowel—and a polluted blood stream as a
consequence. How foolish in such cases
to resort to outward applications, which
can never have natural, permanent re-
sults, if more people only knew it there
is a very simple remedy, to be found in
any drug store, which is as effective as
is harmless and quick acting. It is an old
formula long recognized by the medical
profession, which has been put in tablet
form, and at such small cost no one need
now be deprived of its wonderful ben-
efits.

"Sentinal tablets"—that's the name—
are entirely vegetable and there's no
habit-forming ingredient. You need only
get about a dime's worth, and swallow
one at bedtime to realize there's nothing
else quite so good for the purpose. The
action in the morning is so easy, so cool-
ing, and instead of a weakening after-
effect, you feel truly refreshed and invig-
orated. Sentinal tablets are not only
the best remedy known for constipation
and torpid liver, but offer the most
sensible treatment for complexion
difficulties of the character mentioned.

Great Demand for New Constipation Remedy

They say that the advent of the "sen-
tinal tablet" as a vegetable substitute for
calomel has resulted in an extraordinary
demand for this remarkable product. It
seems to have made a hit, particularly
with those afflicted with chronic consti-
pation, who were quick to recognize its
advantages over calomel and the usual
laxatives.

Sentinal tablets, aside from their effec-
tiveness, doubtless owe their success largely
to a tendency to aid in bringing about
natural functioning—instead of encour-
aging the "cathartic habit." Also, instead
of injuring the mucous membrane of the
organs involved, they exert a healing
influence. Instead of weakening, they
add tone to the intestinal wall, and they
work so easily and gently, they are of
course preferred on this account to the
purgatives. That is another reason for
the popularity of sentinal tablets. One need
procure only a dime's worth, and take
one tablet at bedtime, to be convinced
that the ideal remedy for constipation,
torpid liver, and their many evil con-
sequences, has finally been found—Drug

BEAUTIFUL HAIR, THICK, WAVY, FREE FROM DANDRUFF

DRAW A MOIST CLOTH THROUGH
HAIR AND DOUBLE ITS
BEAUTY AT ONCE.

SAVE YOUR HAIR! DANDRUFF
DISAPPEARS AND HAIR STOPS
COMING OUT.

Immediate?—Yes! Certain?—
that's the joy of it. Your hair be-
comes light, wavy, fluffy, abundant
and appears as soft, lustrous and
beautiful as a young girl's after an
application of Danderine. Also try
this—moisten a cloth with a little
Danderine and carefully draw it
through your hair, taking one small
strand at a time. This will cleanse
the hair of dust, dirt or excessive
oil, and in just a few moments you
have doubled the beauty of your
hair. A delightful surprise awaits
those whose hair has been neglected
or is ragged, faded, dry, brittle or
thin. Besides beautifying the hair,
Danderine dissolves every particle
of dandruff, cleanses, purifies and
invigorates the scalp, forever stop-
ping itching and falling hair, but
what will please you most will be
after a few weeks' use, when you
see new hair—fine and downy at
first—yes—really new hair
growing all over the scalp.

Danderine is to the hair what
fresh showers of rain and sunshine
are to vegetation. It goes right to
the roots, invigorates and strength-
ens them. Its exhilarating, stimu-
lating and life-producing properties,
cause the hair to grow long, strong
and beautiful.

You can surely have pretty,
charming, lustrous hair, and lots of
it, if you will just get a 25-cent bot-
tle of Knowlton's Danderine from
any drug store or toilet counter and
try it as directed.

LEADING BANKERS ARE ORGANIZING AN ATHLETIC CLUB.

(Associated Press Telegram)
New York, Oct. 14.—One hundred
or more of the leading bankers of
the financial district are organizing
a bankers' athletic club which is
expected to be the wealthiest ath-
letic organization in the world. They
have leased 6000 square feet com-
prising the whole 18th floor of the

to walk from their offices to their
club in a few minutes.

MONTENEGRIN ARMY NOW REORGANIZED.

(Associated Press Telegram)
Paris, Oct. 14.—King Nicholas of
Montenegro is quoted by the Petit
Parisien as having declared to its
Cettigne correspondent, "we are
fighting in the enemy's territory.
We are ready and we fear nothing."

The Montenegrin army has been
reorganized and re-equipped, accord-
ing to Colonel Patchich, chief of
staff, who declares the army of the
little Balkan state is worthy the
confidence of the allies.

The offensive begun by Austria,
all along the Montenegrin front, has
been repulsed up to the present and
the military situation is said to be
satisfactory.

BULGARIA SHORT ON AMMUNITION.

Athens, Oct. 14.—Via Paris, Oct.
14.—Bulgaria has in stock only
1350 shells for each gun, according
to information from Serbian
sources, and it is absolutely essen-
tial for its troops to effect a junc-
tion with the Austro-Germans who
have invaded Serbia within a fort-
night. It is reported from Sofia
that German officers and a num-
ber of German workmen who went
there from Constantinople erected
a large munitions factory which is
now working day and night.

NEWARK MAN IS SLATED TO SUCCEED BOPE

Telegraphic dispatches from Col-
umbus state that Geo. H. Hamilton
of this city will be the successor to
C. W. Bope, Willis' appointee for
state inspector of workshops and fac-
tories. Mr. Bope is to have a hear-
ing before the industrial commission
of the state today and it is said that
that board will remove him, after
previously having asked for his resig-
nation.

The Newark man was one of a
number of state employees who were
hurried to Mansfield Wednesday to
forestall action by the Ohio State
Federation of Labor, now in session
in that city, against adopting resolu-
tions condemning the Willis adminis-
tration. It is said that Governor
Willis is in bad with the labor peo-
ple of the state and that they will
not support him in the furtherance
of his political ambition. Mr. Ham-
ilton, who was a candidate for the
position of state inspector of work-
shops and factories but was turned
down for Bope, and was given a
deputyship in the state marshal's de-
partment at a salary of \$1,200 per
year, was very active in protesting
against the humiliation to which he
was subjected in being given a minor
position.

The removal of Chief Bope opens
a way for the placing of Col. Ham-
ilton and his friends. To secure the
 coveted honor however the Colonel
must deliver the goods and endeavor
to patch up the troubles in the Ohio
Federation of Labor which it is hav-
ing with the Willis administration.
If this is brought about all will be
sunshine and roses.

The Willis administration is not
in any too good in many counties
over the state. Licking is an exam-
ple. It is well known that there are
two factions in this county and they
have been at swords points for many
months. The middle of the road men
endeavored to patch up a truce some
weeks ago and might have succeed-
ed but someone "spilled the gravy."
Governor Willis began his adminis-
tration by recognizing the claims of
his friends, those men who supported
him at times when such support was
needed, viz. during his primary cam-
paign. Then there was a reversal of
form and they were shoved aside and
an endeavor made to placate the other
side by recognizing them in the
distribution of the plums. In the
meantime the friends of the govern-
or who had rushed to his support
now are holding aloof. Both fac-
tions in this county are about evenly
divided, although with the regular
organization fighting him at the pri-
mary, the Willis men proved victori-
ous and carried the primary by a
handsome majority. Since then,
however Governor Willis has failed
to recognize any of their claims. It
is hardly probable that these same
men will get out and shout for the
Ada man when he comes up for re-
nomination, if he ever does.

More than a dozen officials of the
State Industrial Commission were in
Mansfield endeavoring to patch up a
truce with the Ohio State Federation
of Labor. Among them were Fred
C. Croxon, Chief Mediator of the
commission; George H. Hamilton of
Newark, who is to be Chief Factory
Inspector; Miss Bessie Corwin of
Cleveland, Deputy Factory Inspector;
George Ditty, Inspector of Engineers;
and William Patterson of Canton, a
Deputy Inspector of Engineers.

IF BACK HURTS BEGIN ON SALTS

Flush the Kidneys at once when
Backache or Bladder bothers—
Meat forms uric acid.

No man or woman who eats meat
regularly can make a mistake by
flushing the kidneys occasionally,
says a well-known authority. Meat
forms uric acid which clogs the kid-
ney pores so they sluggishly filter or
strain only part of the waste and
poisons from the blood, then you get
sick. Nearly all rheumatism, head-
aches, liver trouble, nervousness,
constipation, dizziness, sleeplessness,
bladder disorders come from slug-
gish kidneys.

The moment you feel a dull ache
in the kidneys or your back hurts,
or if the urine is cloudy, offensive,
full of sediment, irregular of passage,
or attended by a sensation of scald-
ing, get about four ounces of Jad
Salts from any reliable pharmacy
and take a tablespoonful in a glass of
water before breakfast for a few days
and your kidneys will then act fine.
This famous salt is made from the
acid of grapes and lemon juice, com-
bined with lithia and has been used
for generations to flush clogged kid-
neys and stimulate them to activity,
also to neutralize the acids in urine
so it no longer causes irritation, thus
ending bladder disorders.

Jad Salts is inexpensive and can-
not injure; makes a delightful effe-
rescent lithia-water drink which
all regular meat eaters should take
now and then to keep the kidneys
clean and the blood pure, thereby
avoiding serious kidney complica-
tions.

DEAFNESS CANNOT BE CURED
by local applications, as they cannot
reach the diseased portion of the ear.
There is only one way to cure deaf-
ness, and that is by constitutional re-
medies. Deafness is caused by an in-
flamed condition of the mucous lining
of the Eustachian Tube. When this
tube is inflamed you have a rumbling
sound or imperfect hearing, and when
it is entirely closed, deafness is the
result, and unless the inflammation
can be taken out and this tube restored
to its normal condition, hearing will
be destroyed forever. Nine cases out of
ten are caused by Catarrh, which is
nothing but an inflamed condition of
the mucous surface.

We will give One Hundred Dollars
for any case of Deafness (caused by
catarrh) that cannot be cured by Hall's

"DRESS UP"

Good Times Are Here! Now!
This Year! 1915!

- Stop wearing "hard times" clothes. That old suit
and that made-over dress are not good enough.
- The farmers have raised the biggest crops in
years, and are getting top prices for them. The
mills and factories everywhere are working at
top speed.
- It is the duty of every citizen to reflect the
nation's prosperity in his dress.

We owe it to the country and to our city. A stranger coming to
town is impressed by the appearance of the people. Let us make
our town look like a "winner" not a "has been."

True Secret of Keeping Youthful Looking

(The Beauty Seeker.)

"The real secret of keeping young-looking
and beautiful," says a well-known
physician, "is to keep the liver and bow-
els normally active. Without these re-
quisites, poisonous waste products re-
main in the system, polluting the blood
and lodging in various organs, tissues,
joints. One becomes flabby, obese, nerv-
ous, mentally sluggish, dull-eyed, with
blotchy and sallow complexion."

Chief Cause of Pimples, Blotches, Sallow Skin

(Messenger of Health.)

Unhealthy eruptions, pimples, blotches,
sallow or muddy skin, usually
are due to a sluggish liver, a constipated
bowel—and a polluted blood stream as a
consequence. How foolish in such cases
to resort to outward applications, which
can never have permanent effect. The
real cause is internal. If more people only knew it, there
is a very simple remedy, to be found in
any drug store, which is as effective as
any natural remedy, and which is as
simple, long recognized by the medical
profession, which has been put in tablet
form, and at such small cost no one need
now be deprived of its wonderful bene-
fits.

"Sentinal tablets"—that's the name—
are entirely vegetable and there's no
habit-forming ingredient. You need only
get about a dime's worth, and have
one at bedtime to realize there's nothing
else quite so good for the purpose. The
action in the morning is so easy, so satis-
fying, and instead of a weakening after-
effect, you feel truly refreshed and invig-
orated. Sentinal tablets are not only
the finest remedy known for constipation
and torpid liver, but offer the safest,
most sensible treatment for complexion
difficulties of the character mentioned.

Great Demand for New Constipation Remedy

They say that the advent of the "Sentinal
tablets" as a vegetable substitute for
cathartics has resulted in an extraordinary
demand for this remarkable product. It
seems to have made a hit particularly
with those afflicted with chronic consti-
pation, who were quick to recognize its
advantages over calomel and the usual
laxatives.

Sentinal tablets, aside from their effe-
cacy, doubtless owe their success largely
to a tendency to aid in preserving about
natural functioning—instead of encour-
aging the "cathartic habit." Also, instead
of injuring the membranous lining of
the organs involved, they exert a healing
influence. Instead of weakening, they
add tone to the intestinal wall. And they
are so easy and gentle, they are of
course preferred on this account to the
violently acting purgatives. Their popu-
larity of sentinal tablets. One need
procure only a dime's worth, and take
one tablet upon retiring, to be convinced
that this ideal remedy for constipation,
torpid liver, and their many evil conse-
quences, has finally been found.—Drug

In Milady's Boudoir

By Gwen Sears

There was never a nervous woman who was well poised, for to have oneself mentally and physically in control, is the secret of that enviable calm, which even wars and earthquakes cannot disturb. Many women acquire nerves and all sorts of nervous disorders through the deadly habit of worrying, a species of self-poison which is sending many women to premature graves every year.

Worry dulls the brain and weakens the flesh and takes zest out of life and living. It is a habit that grows so steadily that one does not know that the disease has caught them unawares. From worrying about trifling things, we go along until big problems assail us, and we worry in waking hours and in dreams, as well. Very soon we are in the grip of our nerves and, of course, we worry about that too.

Cultivating a philosophical view of life and things; persistently taking a cheerful survey and putting aside the unpleasant, checks worry and so becomes the jangling nerves. Most nervous women are incessantly active. To sit still makes the nerves tingle for the next jolt they are to receive. In thiswise, when they are doing one thing with their hands, their brains are doing forty other things at the same time, consequently, even a small amount of work leaves them tired when it is completed.

Concentration is one of the first aids in side tracking nerves. Do one thing at a time with your brain and body. When you wash dishes, wash dishes. Do not attempt to write a club paper in your mind or decide how to make your winter clothes. Use only that set or sets of muscles sufficient to complete the work on hand, and allow your mind to dwell upon the subject minus all tenseness.

The hair cream is a simple, natural product, and it is not a cosmetic effect, but a natural one. The hair cream is a simple, natural product, and it is not a cosmetic effect, but a natural one.

WOMAN AVIATOR GIVES EXHIBITION COLUMBUS SUNDAY

Columbus, Oct. 14.—Miss Katherine Stinson, the world's greatest aviatrix, will give an exhibition of aeroplanes flying next Sunday at the Columbus driving park. Although only 19 years old, Miss Stinson has been a student of the sky sport for the past two years. In that time she has caused a profound sensation throughout the United States and Canada with her daring skill.

The machine that Miss Stinson is now using is the one that Lincoln Beachy discarded at San Francisco just a week before he fell into the bay and was drowned. Miss Stinson, who was a pupil of Beachy's, does practically the same stunts as her late teacher. She loops the loop, flies upside down and does a lot of other death drops.

Columbus will be the last city to see the daring young woman, as she has just signed a contract to fly at the San Francisco exposition, commencing eight days after her local engagement closes.

Miss Stinson not only will give several exhibitions of flying, but also will race one of the fastest motorcycles in the world. As the track here is one mile around, a great race may be expected.

To make the afternoon one of keen sport a series of motorcycle races will be run. The show will be at popular prices and parking spaces for automobiles will be free.

Any man can nail a lie, but it's quite another matter to keep it down.

The Most Popular Hair Tinting Preparation In the World

Considering the length of time it has been on the market—only a few years—"Brownatone" is undoubtedly the largest selling and the most universally used hair tint in the world. "Brownatone" will instantly cause gray hairs to disappear, will give any desired shade from light to the deepest brown or black. It comes already prepared (no mixing), and any one can apply it easily and with the sure knowledge of hair treatment. Just brush or wash it on and it will not rub or wash off nor fade and can not be detected.

Since "Brownatone" is to be had, it is now a very easy matter to have beautiful and becoming hair. It is absolutely safe and harmless as it contains none of the dangerous chemicals contained in hair "dyes" and hair "restorers."

Your druggist sells "Brownatone" or will get it for you, and it is worth your while to insist upon having this preparation and not something else. A sample and a booklet will be mailed you upon receipt of 10 cents, and your order will be filled direct from our laboratories if you prefer. No samples at dealers.

Two shades—one for Golden or Medium Brown, the other for Dark Brown or Black.

Insist on "Brownatone" at your hair-dresser's. Prepared only by The Kenton Pharmacy Co., 79 West 4th St., New York. Sold and guaranteed in Newark by R. F. Collins, Evans Drug Store and other leading dealers.

Your Boys and Girls

The very biggest and sunniest room in the house should be chosen for the nursery. If the children are to sleep there, care should be taken that it is thoroughly aired at every opportunity; furniture should be white enameled, iron white enameled beds or cribs should be used and all furniture should be painted with white enamel. This is not only from an artistic point of view, but because of sanitation, as white enamel is easy to keep clean.

Hangings and bed coverings should be of the lightest material procurable and washable. Cretonnes with figures are good for upholstery, and window curtains can be made of any light, airy washgoods that can be purchased for a few cents a yard.

Every Day Etiquette

"Will you please tell me the difference between a man's and a woman's visiting cards?" asked Marjorie. "A man's card is both thinner and smaller than a woman's, but it should be equally fine in quality, and engraving. The full name and the street address appear on either card," advised her aunt.

Getting Rid of Ugly Hairs And Other Beauty Secrets

The thousands of women who have sought a safe and painless cure for those unsightly and hideous blemishes, on the face and arms, should welcome the following item taken from one of the "Secrets of Beauty" by the famous beauty expert, "The Beauty Doctor." These unsightly and unsightly hairs can be safely and surely removed without injury to the most delicate skin by the use of simple and solution. Any druggist can supply you with simple solution. All you need to do is apply it freely to the hairy places and keep them moist for a few minutes, after washing off you will find that the hairs have been dissolved away entirely, leaving the skin soft and white.

About as unsightly as the hideous hairs are the pesky little blackheads that clog up the pores of the skin and mar the complexion. Don't squeeze these out, it won't do any good, but will cause large holes in your skin. Get from your druggist about two ounces of powdered nioxin, sprinkle a little over a sponge made wet with hot water and rub it over the blackheads, wash off, and you will find that these pesky little things have dissolved away, leaving the skin in its natural color.

One of the nicest cream lotions that anyone can possibly use on the face, arms, neck and hands to keep the skin soft and velvety, can be made by dissolving one ounce of powdered zinc in a pint of hot water. This should be applied twice a day before retiring, after washing well with plenty of soap and hot water and a splash of cold water. Try it for a few nights and you will find the wonderful feeling you have when you awake in the morning.

LICKING MAN IS CANDIDATE FOR HIGHEST HONOR

Fred C. Neff, city treasurer of Columbus, is one of the candidates for mayor of the Capital City. Mr. Neff is an old Licking county boy, having been born at Etta, Ohio, on the interurban line, west of this city. He is fifty years of age, married and has one child, a son, Fred, Jr., two years old. Mr. Neff was elected city treasurer of Columbus four years ago. Previous to that time he was a shoe salesman, wall paper salesman and real estate dealer.

Mr. Neff is making a strenuous fight for the election, conducting his own campaign. He has not established any political headquarters, neither has he had any campaign manager, but is said to be doing effective work in the various wards of the city. He is not letting that interfere with the duties of office, however. Under the new charter, which Columbus has adopted, the city treasurer will be appointed by the council. Mr. Neff's many Licking county friends will wish him success in his political ambitions, trusting that they may be gratified, and that he may be elevated to the highest honor within the gift of the voters, the mayoralty of the capital city of the state.

Well, everybody must admit that the queen of Greece is certainly proving a good sister to the kaiser. —Chicago Herald.

Makes Stubborn Coughs Vanish in a Hurry

Surprisingly Good Cough Syrup Easily and Cheaply Made at Home

If some one in your family has an obstinate cough or a bad throat or chest cold that has been hanging on and refuses to yield to treatment, get from any drug store 2½ ounces of Pinex and make it into a pint of cough syrup, and watch that cough vanish. Pour the 2½ ounces of Pinex (50 cents worth) into a pint bottle and fill the bottle with plain granulated sugar syrup. The total cost is about 54 cents, and gives you a full pint—a family supply—of a most effective remedy, at a saving of 82¢. A day's use will usually overcome a hard cough. Easily prepared in 5 minutes—full directions with Pinex. Keeps perfectly and has a pleasant taste. Children like it.

It's really remarkable how promptly and easily it loosens the dry, hoarse or tight cough and heals the inflamed membranes in a painful cough. It also stops the formation of phlegm in the throat and bronchial tubes, thus ending the persistent loose cough. A splendid remedy for bronchitis, winter coughs, bronchial asthma and whooping cough.

Pinex is a special and highly concentrated compound of genuine Norway pine extract, rich in quaiacal, which is so healing to the membranes. Avoid disappointment by asking your druggist for "½ ounce of Pinex," and do not accept anything else. A guarantee of absolute satisfaction goes with this preparation or money promptly refunded. The Pinex Co., Ft. Wayne, Ind.

An important part of the washing when you use

FELS-NAPTHA

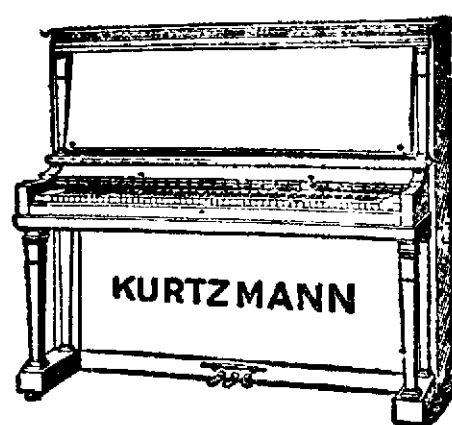

is soaking the clothes.

In these 30 minutes you are saved at least a half-day's drudgery. The naphtha and other cleansers dissolve the grease and loosen the dirt. Your part is easy—a light rub or two, rinsing, bluing, hanging out. No drudgery about that kind of a wash-day.

Use Fels-Naphtha for all soap-and-water work.

FOR ITCHING ECZEMA, OLD SORES AND PILES

"I guarantee my ointment," says Peterson, "to cure eczema, to stop the itching at once and any reliable druggist will cheerfully refund your money if PETERSON'S OINTMENT doesn't do everything I say it will do."

William A. Carley of Franklin, N. Y., is surely a wise man. He writes: "I used PETERSON'S OINTMENT on a little boy suffering terribly with eczema. It did the work."

There is also Alex. Loutlet, a houseman of Buffalo, who is glad to write as follows: "I had an old sore on my leg for many years. The best doctors failed. PETERSON'S OINTMENT entirely healed the sore quickly." And from over in Canada comes a letter from A. Blockley, stating: "The best thing I ever hit for itching piles is PETERSON'S OINTMENT." WILSON

(Continued from Page 2.) church problems. They are merely opportunities.

"I do not believe in the church and state being together, but I do believe in a church for the state, a church that will get next to all the matters of the state."

The speaker then told of the country churches and related his experiences in these small churches.

"The church should govern the spiritual side, but the rural church

has a right to govern the recreational side of the rural community. To reach a boy how to play is to teach him how to pray. To teach a boy to govern himself by the rules of the game, is to teach him to govern himself later."
